

Color The Greenway

Bring The Greenway Home
with our signature Rings Fountain

The logo for 'The Greenway' features the words 'THE', 'GREEN', and 'WAY' stacked vertically in a bold, white, sans-serif font. A thick, dark green diagonal line runs from the top-left to the bottom-right, crossing through the letters of all three words.

**THE
GREEN
WAY**

Hailed as “the most unconditionally happy spot in all of Boston” and “one of the most effortlessly diverse places in the city” by *The Boston Globe*, the Rings Fountain is located in the heart of The Greenway, near the New England Aquarium and Faneuil Hall.

The Greenway Conservancy's signature [Rings Fountain](#) unveiled a new light show for our 10-Year Anniversary in 2019! Fountain repairs and upgrades transformed this one-of-a-kind fountain and created a dynamic new experience in the park.

Work at the Rings Fountain began in October 2018 and, after hundreds of hours of work by Greenway Conservancy staff and technicians from [WET Design](#), upgrades were completed in May of 2019 in time for our summer season in the park.

350 pavers, 156 lights, and 3 miles of wire!

The jigsaw puzzle of 350 granite and concrete pavers were removed and replaced with a crane, and the fountain received new light stands, lenses, hoses, solenoid valves, and more. Fountain equipment in the underground vault was upgraded, as were lights in the plaza near the fountain. 156 lights were upgraded to energy-efficient color LED lights that are programmed to sync to the fountain's water shows and an incredible three miles of wire were used in the upgrades and repairs.

**Show us how YOU would
color the Rings Fountain!**
